**PLAQUES THAT ARE A CUT ABOVE.** Precision tooled plaques with unique profiles and mounting options can be easily and permanently affixed to monument signs, or mounted to become the sign itself. Gemini offers advanced machining and finishing capabilities to realize any plaque design ambition in just days.

**PRECISION AND PERMANENCE.** With Gemini's precision plaque tooling capabilities, even the most articulated logos and small lettering can be captured in crisp detail. Choose versatile, lighter weight aluminum, or the distinctive looks of bronze or brass, all in earth-friendly, lead- and mercury-free alloys, to produce lasting communication designed to endure the toughest environmental conditions for decades. And there's no upcharge for distinctive borders and braille. With Gemini, these impressive artifacts are more affordable, faster, and easier to produce than you think.

Industry-leading lead times

**TIMELESS TRIBUTES:** The artistic qualities of casting cannot be matched by any other process. Gemini's artisans can transform 2D designs and images into realistic, dimensional, and life-like impressions, producing timeless tributes that stand beautifully for generations.

**PRECISION AND PERMANENCE.** Metal casting is a 6,000-year-old art form that has stood the test of time. Our artisans sculpt molds that reflect a 3-dimensional expression of your artwork and manually pour molten bronze or aluminum from our nonpolluting electric foundry furnaces to produce a timeless, durable, one-piece work of art that is hand finished to exquisite results. Choose Gemini cast plaques for your projects that require multi-level surface, including faithful portrayals of people, images, scenes, and dimensional seals that will be forever immortalized in a timeless expression.

## Bas Relief

We start with a quality photograph that the artist uses to create a clay model. An image of this clay model is sent via email for comments or approval. This clay is used to create the cast bronze or aluminum bas relief and mechanically attached to the plaque background.

**VERSATILE AND ELEGANT:** With etched metal plaques from Gemini, you can easily produce custom signage in distinctive metals from original artwork, with nearly limitless possibilities and detail. Common applications include interior and exterior wayfinding, brand and identity signage, awards, and recognition plaques.

**PRECISION AND ARTISTIC FREEDOM.** Gemini's chemical etching is a proprietary process that allows us to transfer your most complex artwork to a brass, bronze, or stainless-steel surface. Your text and the most fine-detailed line-art graphics are surface etched with incredible results, producing a recessed area of the material surface that is paint-filled with your choice of colors. Etched photos are created with halftone images, which resemble newspaper photographs with visible dot patterns. The dots are filled with a dark paint to contrast with the brushed metal finish.

## A TACTILE EXPRESSION OF QUALITY AND ELEGANCE

Whether it's a stand-alone plaque or one that's used to augment larger cast or precision tooled plaques, etched plaques, and emblems from Gemini provide a precision solution that's both affordable and distinctive. Our etched plaques and plates combine classic metal finishes and materials, with durable articulation of your artwork elements in a variety of finishes and mounting options. This robust solution can be used for both interior and exterior applications and include combinations of detailed line art and intricate diagrams to high-contrast photography in ways that bring your vision to life for decades to come.

## ESSENTIAL GUIDE SIZE RANGES AND MOUNTING

- **MINIMUM AND MAXIMUM HEIGHT:** 2" to 72"

**LINE ART & PHOTOGRAPHY:**

A sketch or drawing can be etched with fabulous results by reproducing a black and white line drawing. Since no halftone screen is used in the process, the fine lines are expertly captured in exquisite detail. (Please email for a quote.) Etched photos are created with halftone images, which resemble newspaper photographs and have visible dot patterns. The dots are filled with a dark paint to contrast with the brushed metal finish. High contrast photographs work best for etched images up to 24" x 24".
